

AI citation concentration changes with the question

Share of citation links going to the top 100 domains in each category

81,778 API-reported citation links | 19 monitored domains | 4 engine families

June 30 to September 27, 2026. Each category has its own top 100. Registered domains.

Excludes mixed search-result and redirect-engine feeds. Observational sample; not consumer usage.
